Countries

1. Read the text and do the tasks below.

Citizenship

Citizenship means to be a good citizen in your community, following rules and helping people. Good citizens are kind and helpful people. It is not very difficult to be a good citizen. Ramez, for example, is a good citizen. He goes to school every day. Ramez likes to read about the world. He learns about the history of different countries and their cultures. This way, he can respect others and take care of things. Ramez is very nice to everyone. He also helps old people. At weekends, Ramez does some voluntary work with his friends to protect the environment. They pick up rubbish in parks and plant trees. We can all be good citizens. It feels great to make the world a better place.

Farming

1. Read the text and do the tasks below.

Plants are living things. Trees, flowers, grass and bushes are common plants. Plants make their own food from water, sunlight and soil. They reproduce with seeds. They have different parts: seeds, roots, stems, leaves, flowers and fruits. Most plants start as seeds. Seeds need a safe place to be buried in the soil before they can grow. The seed produces a plant. Some plants grow above the ground like tomatoes, aubergines and cabbage. Others have parts that grow under the ground like turnips, potatoes and beetroot. We use plants for food and drink. We also use them for medicines and making things like clothes.

The Solar System

1. Read the text and do the tasks below.

The solar system consists of the Sun and the nine planets. The Sun is not a planet. It's a star. It's in the center of the solar system. All planets orbit the Sun. The Earth takes 365 days to go round the sun; this is how we have the four seasons. Some planets take less or more days than the others. Mercury takes less days than the Earth because it's the closest to the Sun. The Earth also rotates around itself. It takes 24 hours to have a full round. This is why we have day and night.
